

Antony Amal Rekshin A

Java Developer Fresher

6383792232 | antonyamalrekshin@gmail.com | [GitHub](#) | [LinkedIn](#)

PROFILE SUMMARY

Motivated **Java Developer (Fresher)** with a strong foundation in **Core Java, JDBC, and REST API development**. Passionate about building scalable backend systems, designing efficient databases, and writing clean, maintainable code. Eager to contribute to backend development using **Spring Boot, MySQL, and API integration**.

TECHNICAL SKILLS

Programming Languages : Java, SQL
Backend Technologies : Core Java, JDBC, Spring Boot, REST APIs, Exception Handling
Database : MySQL, SQL Queries, Joins
Tools : Git, GitHub, IntelliJ IDEA, Eclipse, VS Code, Postman
Concepts : OOP, Collections Framework, Clean Code
Frontend : HTML, CSS, JavaScript, React JS, Tailwind CSS

INTERNSHIP EXPERIENCE

Roriri Software Solution

Java Fullstack Developer

Kalakad, Tamilnadu

April 2026 – Present

- Developed backend modules using **Core Java** and implemented database connectivity using **JDBC**.
- Implemented **CRUD operations** using **Spring Boot** and **Spring Data JPA Repository**, with **MySQL** and **PostgreSQL** for efficient database management.
- Worked on **REST API** and tested endpoints using **Postman**.
- Applied **OOP principles** and **Collections Framework** for efficient data handling.

Blumensoft Pvt Ltd

React.js Developer & UI/UX Intern

Tirunelveli, Tamilnadu

Dec 2025 – Mar 2026

- Designed and developed interactive user interfaces using **React.js**, ensuring smooth navigation and responsive layouts.
- Created modern UI layouts and reusable components by applying **UI/UX best practices** and wireframing principles.
- Collaborated with designers and backend developers to convert Figma mockups into functional React components.

PROJECTS

Student Management System — Full Stack Application

Spring Boot · REST APIs · MySQL · React.js

[Github](#)

- Developed a full-stack application using **Spring Boot** for backend and **React.js** for frontend.
- Designed and implemented **RESTful APIs** to handle student data operations including Add, Update, Delete, Search, and View.
- Integrated backend with **MySQL** database using **JPA/Hibernate** for efficient data persistence.
- Built responsive UI components in React and connected them with backend APIs using **Axios**.
- Implemented proper **layered architecture** (Controller, Service, Repository) for clean and scalable code structure.

ATM Banking Management System

Java · JDBC · MySQL

[Github](#)

- Developed a console-based banking application using **Core Java** supporting deposits, withdrawals, and transaction management.
- Integrated application with **MySQL** database using **JDBC** for real-time data operations.
- Designed and implemented **CRUD operations** with optimized SQL queries for efficient transaction processing.
- Applied **OOP principles** and modular coding practices for maintainable and scalable design.

EDUCATION

St. Mother Theresa Engineering College

Bachelor of Engineering in Computer Science

Tuticorin, Tamil Nadu

2022 – 2026 | CGPA: 8.17
